For immediate release

9M FY 18 Consolidated Results ended Dec 31, 2017
Gross Revenue at ₹ 2677.6 crore, 32% growth
Record Profit after Tax at ₹ 221.2 crore, a growth of 15%

- ***Sugar Businesses***
 - ***Higher sales volume and lower finance cost resulted in improved Sugar business performance during 9 months period***
 - ***Sugar prices considerably declined towards the end of the third quarter***
 - ***Encouraging sugar operating performance in SS 2017-18***
 - ***India's sugar output estimates revised upwards***

- ***Engineering Businesses***
 - ***Market has turned around showing good visibility for Gears business; registered good growth during the quarter in terms of turnover, profitability and order booking***
 - ***Muted performance of Water business due to overall Macro-economic factors, resulting in lower turnover & profitability***
 - ***Outstanding order book of ₹ 739.6 crore***

NOIDA, February 12, 2018: Triveni Engineering & Industries Ltd. ('Triveni'), one of the largest integrated sugar producers in the country; a market leader of engineered-to-order high speed gears & gearboxes and a leading player in water and wastewater management business, today announced its performance for the third quarter and nine months ended Dec 31, 2017 (Q3/9M FY 18).

The Company has prepared the Financial Results for the quarter and nine months based on the Indian Accounting Standards (Ind AS) and as in the past, has been publishing and analyzing results on a consolidated basis.

PERFORMANCE OVERVIEW: Q3/9M FY 18 (Consolidated)*In ₹ crore*

	Q3 FY 18	Q3 FY 17	% Change	9M FY 18	9M FY 17	% Change
Gross Revenue	772.6	723.7	7%	2677.6	2029.4	32%
EBITDA	96.8	131.4	-26%	399.0	369.5	8%
EBITDA Margin	13%	18%		15%	18%	
Share of income from Associates	3.3	7.5		10.6	19.5	
Profit / (Loss) Before Tax	79.1	102.0	-22%	303.5	254.0	20%
Profit / (Loss) After Tax (PAT)	60.1	76.4	-21%	221.2	192.5	15%
Other Comprehensive Income (Net of Tax)	0.9	(0.3)		0.7	0.3	
Total Comprehensive Income	61.0	76.1	-20%	221.9	192.8	15%
EPS (not annualized) (₹/share)	2.33	2.96		8.58	7.46	

- The performance of the Company during the nine-month period under review has been better over previous period mainly due to higher sales volumes (in view of significantly higher production in the preceding season) and better performance of co-generation business.
- Gears business performed well during the quarter and nine months resulting in better order booking, turnover and profitability.
- The performance of Water business has been subdued. Provision has been made for additional losses in Water Business resulting from delayed projects and the consequent cost overrun.
- The total debt of the Company as on Dec 31, 2017 is ₹ 739.4 crore, which is 57% lower than on 31.03.2017 and 31% lower than on Dec 31, 2016.
- The term loan as at Dec 31, 2017 is at ₹ 194.3 crore (including ₹ 52.4 crore loans with concessional interest/interest subvention) and the short term loans including cash credit has been ₹ 545.1 crore. During the quarter, the Company repaid total debts amounting to ₹ 61.3 crore, including prepayment of ₹ 23.4 crore.

Commenting on the Company's financial performance, Mr. Dhruv M. Sawhney, Chairman and Managing Director, Triveni Engineering & Industries Ltd, said:

"The performance of the Company has been satisfactory. The turnover and profitability of 9M FY 18 increased by 32% and 15% respectively as compared to the corresponding period of previous year. The main reason for this growth is the higher sales volume with healthy contribution margins.

The revised estimates of production in the Sugar Season 2017-18 at around 27.5 million tonnes against 25 million tonnes projected earlier. This, along with supply pressures, has resulted in a change in market sentiments leading to fall in sugar prices since December 2017 to even below the cost of production. However, in the last few days there has been an upturn in sugar prices due to the various Government's initiatives.

In order to improve the domestic sugar prices and avoid building up of cane dues, the Central Government has initiated certain measures. The recent welcome move by Government of increasing the import duty to 100%, withdrawal of stock holding limit on traders and stock limit on sugar sales by the mills will help the sugar prices to improve. Further, in order to improve the sugar pricing situation, the Government is also expected to announce mandatory exports to liquidate the surplus sugar in the country. This should help in bringing more stability to the market which would be favorable for the sugar prices going forward.

The sugarcane crushing in all our sugar units is in line with our expectations. The cane crushing up to 11th Feb 2018 has increased by 19.3% y-o-y with an increase in sugar production by 22.5% at an increase in recovery by 28 basis points. We expect that the overall sugar production during the season will be significantly better than last year, which augurs well for the business going forward.

In view of adequate cane availability and increased operational period, the Cogeneration business has fared much better than the previous comparable periods. The performance of the distillery has been impacted during the period under review due to certain regulatory interventions and it is expected to improve in the coming quarters.

Gears business, during the quarter has performed well in terms of turnover, profitability and the order booking which augurs well for the business going forward. Our foray into new products is expected to result in better performance in the coming quarters. In the Water business, the order inflow is still lumpy with order finalization getting delayed. Similarly, slow progress on certain projects and delay in completion has resulted in cost escalations, which have adversely impacted the results. We look forward to stable pipeline of orders and normal execution of projects for the business to perform better. The total outstanding order book as on Dec 31, 2017 stood at ₹ 739.6 crore.

- ENDS -

Attached: Details to the Announcement and Results Table

About Triveni Engineering & Industries Limited

Triveni Engineering & Industries Limited is a focused, growing corporation having core competencies in the areas of sugar and engineering. The Company is one amongst the largest integrated sugar manufacturers in India and the market leader in its engineering businesses comprising high speed gears, gearboxes, and water treatment solutions. Triveni currently has seven sugar mills in operation at Khatauli, Deoband, Sabitgarh, (all in western Uttar Pradesh), Chandanpur, Rani Nangal and Milak Narayanpur (all in central Uttar Pradesh) and Ramkola (eastern Uttar Pradesh). While the Company's Gears manufacturing facility is located at Mysore, the Water & Wastewater treatment business is located at Noida. The Company currently operates three grid connected co-generation plants and three incidental co-generation plants located across five sugar units and one of the largest single stream molasses based distillery in India, located at Muzaffarnagar.

The Company produces premium quality multi-grade plantation and refined sugar. All of the Sugar units are FSSC-2000:2010 certified. The sugar is supplied not only to household consumers but also to bulk consumers. The Company has supply chain relationship with leading multinational beverage, food & FMCG companies and pharmaceutical companies. It also has a strong presence in branded sugar market through its brand "Shagun". The distillery has a flexible manufacturing process allowing it to produce Ethanol, Extra Neutral Alcohol (ENA), Rectified Spirit (RS) and Special Denatured Spirit (SDS) all of which are renowned for their high quality. Its co-generation plants in Deoband and Khatauli (Phase I) are registered as Clean Development Mechanism (CDM) projects with UNFCCC. The Company's Khatauli, Deoband, Sabitgarh, Chandanpur & Milak Narayanpur units are also registered as Renewable Energy Certificate (REC) project under CERC.

The Company delivers robust and reliable Gears solutions which cover a range of applications and industries to meet the ever-changing operating conditions and customers' requirements. The major product portfolio includes steam turbines, gas turbines, and compressor gearboxes under the High Power High Speed segment. In the Low Speed segment, the Company focuses on the gearboxes used in applications such as reciprocating pumps and compressors, hydel turbines, mill and extruder drives for metal, sugar, rubber and plastic industries, marine applications, etc. All the products are designed, manufactured and commissioned in accordance with international quality norms such as DIN/ AGMA/ API/ ISO standards. Its robust and reliable products are backed by 360 degree service solutions which minimise the downtime for its customers. The Company provides health monitoring services for all types of critical gearboxes, high speed and low speed, as well as maintains an inventory of dimension ready sites for immediate solution.

The Company is also one of the leading solutions providers for water treatment, wastewater treatment and the recycle of water. Advanced Solutions offered for total water management include turnkey / EPC, customer care, operations and maintenance, life cycle models such as Design, Build Own & Operate (DBOO), Design, Build Own Operate and Transfer (DBOOT), BOOT, equipment supply for unit processes like screening, grit separation, clarification and sludge handling. The Customer Care Division offers value added services for operation management and performance optimisation. The quality service offerings are tailored to customers' requirements, which in many cases form an integral part of the main contract - operations and maintenance, annual maintenance contracts, product & process audit, health check-up and overhauling, pilot experiments, refreshment, upgradation and automation of existing plants, spares and service consumables and chemicals and on-site training and assistance.

The turbine business of the Company, located at Bengaluru has been demerged through a scheme of arrangement into Triveni Turbine Limited (TTL) from the appointed date on 1st October 2010, and the same has become effective w.e.f. 21st April, 2011. Triveni Engineering & Industries Limited holds 21.82% equity capital of Triveni Turbine Limited.

Q3/9M FY 18: BUSINESS-WISE PERFORMANCE REVIEW

(all figures in ₹ crore, unless otherwise mentioned)

The consolidated result of the Company includes the results of its associates, Triveni Turbine Limited (TTL) in which the Company holds 21.82% equity capital and Aqwise-Wise Water Technologies Limited, in which the Company holds 25.04%, in accordance with Ind AS.

Sugar business

Triveni is amongst the leading players in the Indian sugar sector, with seven sugar manufacturing facilities located in the state of Uttar Pradesh.

Performance

	2017-18 season (Oct – Dec 2017)	2016-17 season (Oct – Dec 2016)
Cane Crush (Million Tonnes)	2.80	2.26
Recovery (%)	10.48	10.32
Sugar Production (Tonnes)	293838	233438

	Q3 FY 18	Q3 FY 17	9M FY 18	9M FY 17
Sugar dispatches (Tonnes)	165522	147818	608126	436606
Realisation price (₹/MT)	36940	36362	37278	35801
Gross Revenue (₹ crore)	682.4	646.4	2417.0	1767.8
PBIT (₹ crore)	34.5	84.0	295.4	251.5

- The sugar stocks have been written down to net realizable value as at the end of the quarter and the total inventory write down of ₹ 24.7 crore has been considered. The cost of production during the initial period of season up to 31.12.2017 is transitory and is expected to substantial decline due to better recoveries and scale of operations.
- The sugar inventory as on Dec 31, 2017 was 20.8 lac quintals valued at ₹ 32.8/Kg.
- Income from Incidental co-generation units at Chandanpur, Milak Narayanpur and Sabitgarh resulted in a revenue of ₹ 8.06 crore for the quarter ended Dec 2017.

Industry Scenario

- As against original all India sugar production estimates of around 25 million tonnes, the estimates have been revised upwards to about 27.5 million tonnes with bulk of the production coming from Uttar Pradesh at about 10.5 million tonnes and Maharashtra at about 9.5 million tonnes.

- In view of supply pressure to pay cane dues and estimates of higher production estimates, the sugar prices have fallen by about ₹ 5 per kg and risen shortly recently.
- The Government had been pragmatic in comprehending the grave situation and the problems of resultant cane dues. It has initiated series of actions which have reversed the trend of decline in prices including withdrawal of stock holding limit on traders and increasing the import duty to 100%. However, the export is the only sustainable solution to liquidate the surplus stocks.
- The Central Government has also announced stock limit on sales of sugar by mills under which each sugar mill will have to keep with at the end of February 2018 not less than 83% of the closing stock as on January 31 in addition to the February sugar production less sugar exported during the month and for February 2018, 86% of the closing stock as of February 2018 in addition to March sugar production less sugar exports for March 2018. This should help in maintaining the demand-supply balance in the market thus improving sugar prices and helping in timely payment of sugarcane prices to farmers.
- FRP has been declared for SS 2017-18 at ₹ 255 per quintal, an increase of 11% from the last season, linked to a basic recovery rate of 9.5% subject to a premium of ₹ 2.68 per quintal for every 0.1% point increase in recovery above that level.
- The Uttar Pradesh govt. has announced sugarcane SAP at a price hike of ₹ 10/quintal over the previous season. The SAP of general variety of sugarcane is ₹ 315/quintal, ₹ 325/quintal and ₹ 310 per quintal for early maturing and rejected variety respectively.
- As per the industry information around 504 factories are operational across India and have produced around 17.1 million tonnes of sugar till 31st Jan 2018. Sugar production in key states:
 - ✓ Uttar Pradesh – 5.4 million tonnes
 - ✓ Maharashtra – 6.3 million tonnes
 - ✓ Karnataka – 2.7 million tonnes
 - ✓ Tamil Nadu – 0.2 million tonnes
- The recovery for the state of UP has increased by 28 basis points at 10.26% till end of Jan 2018 as compared to the corresponding period of last year. The sugar production in UP has increased by 21% to 5.4 million tonnes at the end of Jan 2018 as against 4.5 million tonnes produced in the corresponding period of last year.
- The Central Government has raised the ethanol price by around 5% from ₹ 39/ltr to ₹ 40.85 per ltr for Marketing Year 2017-18 starting from December 2017 for a total quantity of 313 crore litres, an increased quantity of ~12% over last year.
- Currently, OMCs have released tenders worth ₹ 313.57 crore litres for the current marketing year.

International sugar scenario

- The global sugar surplus is estimated at a further 3.9 million tonnes in 2017/18. The global sugar prices have been under pressure and at the end of Jan 2018 reached levels of 13.23 Cents/Pound for raw sugar and 352.40 US\$/MT.
- The sugar production for the 2017-18 harvest is substantially complete in Brazil. The sugar produced by Brazil CS region mills till Jan 16, 2018 is 35,827 thousand tonnes which is 1.67% higher than the corresponding period of previous year. The share of sugarcane towards production of sugar has increased to 46.92% in 2017/18 as compared to 46.60% in 2016/2017.
- In Thailand, the sugar production is estimated at ~ 12 million tonnes in 2017/18 owing to improved sugar extraction rate. The total cane crushing reached 20.1 million tonnes producing sugar at 1.6 million tonnes by the end of December 2017 as compared to 0.931 million tonnes produced in the corresponding period of previous year.

Co-generation business

Triveni's co-generation plants at Khatauli (two units) and Deoband supplies (exports) surplus power to the state grid after meeting captive requirements.

Performance

	Q3 FY 18	Q3 FY 17	9M FY 18	9M FY 17
Operational details				
Power Generated – million units	91.93	81.22	143.24	94.04
Power exported – million units	60.09	53.79	96.70	61.20
Financial details				
Gross Revenue (₹ crore)	76.0	66.5	114.0	79.8
PBIT (₹ crore)	36.5	26.1	51.5	33.4

- The operating days of co-generation units during the Q3 FY 18 were higher compared to the corresponding period of last year due to early start of the crushing season leading to higher turnover.
- The operating efficiency of the plants continued to be excellent.
- Income of ₹ 5.2 crore has been realised during the current quarter and ₹ 6.4 crore during nine months from the sale of Renewable Energy Certificates (RECs) in respect of Khatauli and Deoband units.

- With the estimated increase in cane crush for 2017-18 season, the outlook for the co-generation business segment is good and we believe the same will be reflected in the performance in the coming quarters.

Distillery business

Triveni's distillery produces Extra Neutral Alcohol (ENA), Rectified Spirit (RS), Special Denatured Spirit (SDS), and Ethanol

Performance

	Q3 FY 18	Q3 FY 17	9M FY 18	9M FY 17
Operational details				
Production (KL)	7590	12412	15608	25785
Sales (KL)	5868	8477	19752	29139
Avg. realisation (₹/ ltr)	39.15	40.50	39.04	42.17
Financial details				
Gross Revenue (₹ crore)	23.1	38.1	81.9	129.7
PBIT (₹crore)	7.7	8.5	6.5	29.0

- The distillery remained closed for over a month in first half of FY 18 which has impacted the overall production of the distillery.
- The ethanol tender for Dec 2017- Nov 18 was delayed and due to which the supplies during the quarter had affected, which resulted in lower sales volume.
- The Company received 2.72 cr ltr of contract for ethanol supply during 2017-18 (Dec 17- Nov 18) at an administered basic price of ₹ 40.85 /litre.
- The share of Ethanol sales in 9M FY 18 is 92% of the total sales volume, as against 73% in 9M FY 17.

High speed gears and gearboxes business

This business manufactures high-speed gears and gearboxes upto 70MW capacity with speeds of 70,000 rpm. Triveni is the country's largest one-stop solutions provider in this sector with over 60% overall market share.

Performance

	Q3 FY 18	Q3 FY 17	9M FY 18	9M FY 17
Gross Revenue (₹ crore)	28.2	19.7	70.0	53.9
PBIT (₹ crore)	9.6	3.1	16.6	7.6
Order Booking (₹ crore)	33.7	15.7	149.4(*)	59.4

(*) include ₹ 50.8 crore executable beyond FY 19

- The activities during 9M FY 18 have picked up as indicated by the order booking. Order booking also improved by 115% in the quarter while the increase in the 9-month period has been high at 151%.
- Overall the market looks stable with positive signs from some sectors.
- The business has strong enquiries from defence and is hopeful of concluding some more of them in the coming quarters.
- The outstanding order book as on Dec 31, 2017 stood at ₹ 138.1 crore including order of ₹ 50.8 crore executable beyond FY 18.

Outlook

- The market outlook for the capital goods segment is advancing towards recovery. Sectors where orders have been poor are expected to turn positive in the next couple of quarters.
- The turnover from OEMs have gone up by 43% during the nine months in comparison to the same period last year.
- Similarly, Retro business including spares and services have also gone up by 35% year on year during the nine-month period under review.
- Replacement business is doing well and is expected to continue.
- The Company is exploring new product & geographies to expand so as to further improve its turnover and profitability.

Water business

This business is focused on providing world-class solutions in water and wastewater treatment to customers in industrial and municipal segments. This business is gaining faster momentum and is getting recognition in a high potential market as a supplier of superior quality products and services at competitive costs.

Performance

	Q3 FY 18	Q3 FY 17	9M FY 18	9M FY 17
Gross Revenue (₹ crore)	34.8	38.8	108.2	115.0
PBIT (₹ crore)	(4.7)	(0.6)	(16.4)	(0.5)

- Slow progress and delay in completion of certain projects are resulting in cost escalations which have adversely impacted the results.
- The total order intake for the nine months period was ₹ 83.9 crore.
- The outstanding order book as on Dec 31, 2017 stood at ₹ 601.5 crore, which includes ₹ 253.9 crore towards Operations and Maintenance contracts for a longer period of time.

Outlook

- The Company has participated in large number of tenders which are in various stages of finalisation. The Company is expecting significant order booking in FY 18 which will ensure growth in turnover in the coming years. The Company is also exploring export opportunities to expand its business thereby aim to improve its performance.
- The Company continues to successfully leverage its existing engineering relationships with industrial sector customers.
- The uncertainty in order finalisation still lingers on but with various policy initiatives of the Central Government and focus on the treatment of waste water and provision of adequate water to the citizens of India; we believe that the order finalisation in this business will gain momentum in the coming quarters.
