

Triveni Continental Kings becomes maiden champions of the Global Chess League

New Delhi, 4th July 2023: Triveni Sports Ltd., a joint venture of Triveni Engineering & Industries Limited (TEIL) and Triveni Turbine Limited (TTL), embarked on an extraordinary journey by becoming the maiden champions of the Global Chess League. Triveni Sports owned Triveni Continental Kings led by coach Loek Van Wely and global chess players including Levon Grigori Aronian, Wei Yi, Yu Yangyi, Kateryna Lagno, Sara Khadem, and Jonas Buhl Bjerre, displayed a remarkable resilience in their relentless pursuit of victory.

During the journey that unfolded in the intense and climactic finale, Triveni Continental Kings delivered a captivating performance, emerging as the victors over the Upgrad Mumba Masters. The Kings showcased unparalleled skill, resilience, and determination, conquering two rapid matches, two blitz matches, and four high-stakes sudden-death tiebreak games. Notably, Jonas Buhl Bjerre, despite being one of the youngest players in the tournament, secured a pivotal victory for the team at a decisive moment. The Kings faced initial challenges and made a remarkable comeback from the bottom of the league to eventually emerge as the winner.

Talking on the exceptional victory, **Dhruv M. Sawhney, Chairman and Managing Director, Triveni Engineering & Industries Ltd., and Triveni Turbine Ltd.**, said, *“Triveni Continental Kings triumph in the Global Chess League, exemplifies Triveni’s unwavering commitment to overcome challenges and achieve greatness. This victory not only showcases our team’s relentless spirit and unwavering dedication but also highlights our ability to pursue excellence under challenging conditions.*

Mr. Sawhney further added, *“Through this remarkable feat, we have taken another significant stride in establishing global recognition for India. Our aim was to create meaningful connections with chess enthusiasts and the global community, nurture talent, and make valuable contributions to the game of chess worldwide. We are immensely proud of our team and look forward to continuing our journey towards excellence in the world of chess.”*

Looking ahead, Triveni Sports Ltd. remains committed to nurturing talent, fostering sportsmanship, and leaving a lasting impact in the realm of sports. The outstanding success of Triveni Continental Kings in the Global Chess League has solidified the company's position as a dominant force in the world of chess, earning global recognition and respect.

About Triveni Sports Pvt. Ltd.

Triveni Sports Private Ltd. is a joint venture between Triveni Engineering & Industries Limited (TEIL), a diversified industrial conglomerate having core competencies in the areas of sugar and engineering, and Triveni Turbine Limited (TTL) a focused, growing and market-leading corporation having core competency in industrial heat & power solutions and decentralized steam-based renewable turbines up to 100 MW size.

Aligned with the legacy and strategic development of the nation through years of innovation driven by its parent companies, Triveni Sports aim to boost the reach of chess, encourage talent, and give the sport the rightful push it deserves.

About Triveni Engineering & Industries Limited

Triveni Engineering & Industries Limited (TEIL) is a diversified industrial conglomerate having core competencies in the areas of sugar and engineering. The Company is one of the largest integrated sugar manufacturers in India and amongst the leading players in its engineering businesses comprising Power Transmission business and Water & Wastewater treatment solutions. TEIL currently has seven sugar mills in operation at Khatauli, Deoband, Sabitgarh, (all in western Uttar Pradesh), Chandanpur, Rani Nangal and Milak Narayanpur (all in central Uttar Pradesh) and Ramkola (eastern Uttar Pradesh). While the Company's Power Transmission (Gears) manufacturing facility is located at Mysuru, the Water & Wastewater treatment business is located at Noida. The Company currently operates 6 co-generation power plants located across five sugar units, with 104.5 MW grid connected co-generation capacity.

The Company has the state-of-the-art distilleries spread across Muzaffarnagar (MZN) – 2 facilities, Sabitgarh (SBT) and Milak Narayanpur (MNP) in Uttar Pradesh. SBT distillery produces high quality Ethanol from molasses, the distillery at MNP is a multi-feed stock plant having the ability to use Molasses and Sugarcane juice/syrup, Grains to produce high- quality Ethanol. MZN houses two facilities with the latest being a grain-based distillery. The existing distillery at MZN of 200 KLPD boasts of flexible product manufacturing capability - Ethanol, Extra Neutral Alcohol (ENA), Rectified Spirit (RS) and Denatured Spirit (SDS) from molasses, while the recently commissioned 60 KLPD grain-based facility at MZN produces both Ethanol and ENA. Dried Distillers Grain with Soluble (DDGS), a by-product produced in grain plants is sold to premium Institutions and has been well accepted in market. The Company also manufactures Indian Made Indian Liquor (IMIL) at this complex.

The Company produces premium quality multi-grade crystal sugar, raw (as per the market/export requirements), refined and pharmaceutical sugar. All the Sugar units are FSSC 22000 certified. The sugar is supplied not only to household consumers but also to bulk consumers. The Company has supply chain relationship with leading multinational beverage, food & FMCG companies, pharmaceutical companies, and leading confectionery producers. It also has a strong presence in branded sugar market through its brand "Shagun".

The Company is a dominant market player in the engineered-to-order turbo gearbox manufacturer in India. The Power Transmission business has 3 different business segments – Gears, Defence, Built to Print. It delivers robust and reliable Gears solutions which cover a range of applications and industries to meet the ever-changing operating conditions and customers' requirements. The Company has become a dominant supplier to all major OEMs in the country, offering solutions to all industrial segments including Oil and Gas as per AGMA, API-613 and API-677 standards. It remains the market leader in high-speed Gears and Gearboxes up to 70 MW capacity and speed of 70,000 rpm. The major product portfolio includes steam turbines, gas turbines and compressor gearboxes under the High-Power High-Speed segment. In the Low-Speed segment, the Company focuses on the gearboxes used in applications such as reciprocating pumps and compressors, hydel turbines, mill, and extruder drives for metal, sugar, rubber and plastic industries, marine applications, etc. Its robust and reliable products are backed by 360-degree service solutions which minimise the downtime for its customers. The Company provides health monitoring services for all types of critical gearboxes, high-speed and low speed, as well as maintains an inventory of dimension ready sites for immediate solution.

The Company provides complete and sustainable water technology solutions across the water usage segments. Advanced Solutions offered for total water management include turnkey / EPC, customer care, operations and maintenance, life cycle models such as Design, Build Own & Operate (DBOO), Design, Build Own Operate and Transfer (DBOOT), BOOT, equipment supply for unit processes like screening, grit separation, clarification, and sludge handling. The Customer Care Division offers value added services for operation management and

performance optimisation. The quality service offerings are tailored to customers' requirements, which in many cases form an integral part of the main contract - operations and maintenance, annual maintenance contracts, product & process audit, health check- up and overhauling, pilot experiments, refreshment, upgradation and automation of existing plants, spares and service consumables and chemicals and on-site training and assistance.

Triveni Brands is the FMCG Division of the Company which currently constitutes Shagun Sugar, Triveni Sugar, and the Private Label Business. The mission of this division is to create innovative and high-quality products that delight customers. Our products have a strong omni-channel strategy, and we are committed to growing in a sustainable manner while keeping customer at the very center.

As a result of a Scheme of Arrangement, the Company's steam turbine division was demerged into one of its wholly owned subsidiaries, Triveni Turbine Limited (TTL), and was listed on the NSE and BSE in 2011. The Company owned 21.85 of TTL's equity, until September 21, 2022, when the entire stake was divested with net proceeds of ₹ 1,593 crore.
